While it is doubtless true that he has not allowed difference of opinion as to Church policy to destroy any personal friendship or embitter any social relation, yet it is within the knowledge of the present writer, and of those who know him best, that Joel Bean has always discountenanced separation and would never be identified with any.**”

23. Bean, Joel |5/2/1892 |8 |San Jose, CA nt |British Friend

Topics: "What is the True Preparation for the Ministry." A Word from America.

"Iowa Yearly Meeting proposes the establishment of a Biblical Institute for the special training of Ministers." (Quotes B. F. Trueblood from Christian Worker of 12/10/1891). . . .

". . . . Quakerism, as originally promulgated, has no need and no place for it. . . . But it is a question as to the special training that best fits a minister to preach the Gospel." . . . A Bible Institute may be a necessary adjunct of the Pastoral System, which relegates the Ministry to a class, or clergy, from which those in ordinary occupations must be practically excluded, and which George Fox himself could not have entered."

"But it is difficult to see how such a transformation can take place in the Society of Friends without a total change of base, and the tacit confession that Quaker itself has been a mistake."

Topics: "A Letter from James Bean." [After having published in our columns such matter as has appeared relative to the excluding of San Jose Friends from membership, it seems to be but air that the explanation of James Bean in for following letters should have a hearing. --ED.]

(almost 2 columns follow on 2 pages) **Iowa New Providence Friends** had no valid reason for dropping S.J. Friends. **Found out 3 months after action, by accident.** excuses were an after-thought. "College Park meeting was *never* established, nor has it performed the functions of an independent church. Their meeting house was built by authority of S. J. Mo. Mtg., when they had no house, and were meeting in a rented hall. . . ."

After the Mo. Mtg. was discontinued, and Friends were deprived of having any voice or part in Meetings for Discipline--the writer received personal letters from both Haverford and Baltimore Friends, recommending the organization of a local assn. similar to the one at Haverford."

31. Bean, Joel |12/30/1910 |8 |San Jose, CA (College Pk.) |The Friend

Joel Bean, of San Jose, California, pleading for the spirit of unity, suggests "a few thoughts" "It was our privilege a few years ago to entertain in our homes a widely-known and honored minister of the "Hicksite" branch of Friends. (I use the term reluctantly for distinction.) In freely conversing together, he expressed his entire agreement wit a statement of Whittier's, that "in Jesus Christ we have given us the most perfect manifestation of God possible in human life."" (USED SAME STORY IN 1911 PAPER)

Topics: “Disownment of Joel Bean and Others”, pp.s 261-263. 13 members of College Park Meeting disowned or dropped as members of New Providence Mo. Mtg., Iowa. **Alice Vail wrote asking for certificate of her membership, to present to some meeting here. The clerk replied that she and others were dropped.** As all our membership, for some reason never explained to us, had been changed 13 yrs ago (1885) from Honey Creek to New Providence, James wrote for names of those disowned. The list is Joel & Hannah Bean, their children and grandchildren except for one daughter a member in Philadelphia, James Bean & wife & children, and Ben Jones & children, & **Alice Vail**. No charges made, no committee appointed, no notice give of action. James review history of Ben H. Jones, of laying down of San Jose Mo. Mtg., the real cause of a minute to accompany Isaac Sharp, and the resulting decline in Iowa of Quakers, because of the “persistent determination of a few leaders to force upon the Society their peculiar dogmas and intolerance”

“under the rules of Discipline no Yearly Meeting would now receive them even as members, except those with which London does not correspond,” . . . Half the names were misspelled. The American Friend and colleges are working to hold the society together. cites declining membership and 1,653 ministers plus J. H. D.

33. Bean, James |4/1/1894 |8 |San Jose, CA nt |The British Friend

Topics: “Separated Friends in America”, editor introduces James’s “The Early History of the Iowa Case.” Editor asks London Yearly Mtg. to reach forth to America in correspondence. James thanks John. S. Rowntree for his support as editor but wants to correct Joel Bean’s label as a separatist. The Friend also calls Joel Bean a separatist when he attends meetings in Iowa of his old friends. For 25 yrs. they were together, and the Clerks of Men’s and Women’s Yearly Mtg. were chosen from this very meeting. Joel had been in Calif for 2 yrs. and neither advised or had anything to do with it (separation). James tells story of Bean’s arrival in San Jose, the minute from Honey Creek not to liberate the Beans for travel, its rejection by S.J.Mo.Mtg., the travel with Isaac Sharp, but no further endorsement of service outside. College Park Mtg. set up under Iowa Yrly Mtg.?? Decrease in Iowa Quakers, and alienate instead of unite them with evangelistic work.

“**I am among those who are members still of the larger branch**, and I believe many are with me in the hope that London Yearly Meeting **will not exclude from its sympathy and help the smaller Yearly Meetings** which are endeavoring to advocate and embody the doctrines of the Society. . . . it may be in the future as in the past, a means of *gathering* and *upbuilding*. J.B. “

Topics: “Emphasizing Doctrinal Differences.” as republished in The Friend, Fifth-Day, First Month 5, 1911, Vol. LXXXIV. No. 27. p. 213. But I regret to see of late a tendency in some of its (The Intelligencer) articles, to emphasize those doctrinal differences that caused the great division of our Society in 1825, and thus to disparage all hope of a possible reunion.

“In the *Truth* there is *Unity*. “ “An example has been set for years by the little meeting at College Park, of combining members of the several branches of Friends in sweet fellowship in worship and ministry.” “We are not in danger of too large a faith, but of too little faith in God, and in the revelation of *himself in his one* perfect human and Divine Son. --Joel Bean.

Topics: “Letter from Joel Bean” followed by a second reprint of his 1880 “The Issue”. p. 282.

“I am prompted by thy last issue to express the joy I felt to see the place given in its columns for the ‘Voice from Iowa,’ presenting a different view of what Friends are passing through, from that which meets the readers of most of the published accounts that the oppressed, and the proscribed, and the outcast may have a hearing.”

“Springdale Monthly Meeting described in the moderate and candid letter of A. Crosbie,”

“How is it the the perpetrators of these wrongs receive the right hand of fellowship,?” “. . . and the liberty of criticism and caution is suppressed to such a degree, that a paper like “The Issue,” which appeared in *The British Friend* 2 1/2 years ago, is not allowed to rest, until a Yearly Meeting condemnation of it (and of course of the writer of it) has been obtained?”

"Surely it is possible to be diligently engaged in working for the Master and yet keep to our Principles as Friends. Not the mere forms but the realities. It is the sad results of the "Pastoral system" which are doing so much harm here. Already it has been stated in a Monthly Meeting that Pastors should be changed at least once in 3 years as they will repeat themselves and every part of the service is as clearly arranged for as in any Anglican Church, singing, prayers, Sermon, collection & announcements and even the subject of the Sermon is sometimes advertised in the Daily papers.

Topics: page 2 bottom, and page 3, on wedding of Catherine Bean to Isaac Cox.

”It has been a full summer with us. The **wedding in 5th mo.** brought several of our relations from the East, our brother Samuel R. Shipley & wife, and his daughter Susan from Philadelphia and sister **Catharine M. Shipley** from Cincinnati. We had a good visit from them all.

“The marriage day was one to remember with thankfulness. About a hundred guests filled our meeting house, a devout company, tho’ some were strangers to Friend’s Meetings and mode of marriage.

“ It brought, of course, an unusual strain, the effect of which my wife has had to face since. **Her health has been quiet poor.** We went to the sea side for a month to our Pacific Grove cottage. Our daughter Lydia & her two little ones were with us, and still remain there. It is a charming place for the children who spend most time on **the beach about 200 yards from the cottage.** The weather there is cool all the Summer.”

“Thou would go to the further extent of embracing also the ‘Hicksite’ divisions. I see no objection to that since there are good and true Friends and beautiful Christian characters in every one of the dissevered bodies.

“The effect of your annual letter of fellowship for some years past, has seemed to me to be quite other than that desired or intended by your Y. Mtg.

“They have been taken as encouragement by those who have been leaders in sweeping changes, and chief causes of the separations and have not therefore strengthened the hands of real Friends. The effect upon the smaller bodies of practical disownment has been discouraging; and many who have not separated remain with little influence and little satisfaction in meetings where their judgment is no longer welcomed.” JOEL SAYS Y. Davy read his paper at last Semi Annual Meeting. “He is a choice young man gifted for usefulness. “In his paper he spoke of some of the weaknesses and hindrances in the Society of Friends, such as our tendency to live too much on the records of our ancestors - our self gratulation, and too much bondage to rule and precedent and technicality of organization.” “A simpler form of organization, a freer spiritual life, less barriers as to membership, he suggested might be better. . . . He thought meetings for worship could be maintained without dependence one upon another and ministry exercised without recording etc. Yet the spirit of the paper was excellent - tolerant and appreciative of different views and practices.” Isaac Cox’s paper “well up to his subject”.

The *Phila Friend* is not hospitable to them. In the *American Friend* no mention of them appears as yet. But I think there is much in them worth pondering. Especially the part referring to the spirit we should cherish towards the separated body. I have long believed that the great majority of the two branches are kept apart by circumstances rather than by essential differences of doctrines.”

What a privilege you will again enjoy in having the company of dear I. Sharp near you this winter. The different Y. Mtgs. rendered him a warm reception, or all east of Oregon. What a frail, aged friend he is, led from place to place by the unerring Guide, who has been his mouth piece & his guard through winter's storms or summer's heat,

Your release as ministers will not be felt by you as though you had your liberty for the past yr; May your gift be exercised & thine the lighter for Him whose you are & whom you have so diligently served.

We have a new Pastor here. Charles White from Iowa Falls, a young single man, a pleasant appearing friend, G says preached a good sermon today, he first one.

A Crosley chief speaker, crowded,

Our dear Mary attended the W. Branch Mtg. last first day afternoon. A. Crosby, the chief speaker. A great many who could not get in & many young people carrying their seats. The request is being?? received by Ohio Wilbur Jr. Mtg. for Hickory Grove mtg. to be joined with those at West Branch . It came as a recommendation.

Joel rejects resignation from Society of Friends. No conduct that warrants leaving Quakerism. Jesus not resign. "silent concurrence in a conceded wrong is necessary to the maintenance of continued unity."

some have been excluded for standing for Quakerism.

Perhaps these questions may lack a pertinence that my point of view disqualifies me from seeing.

Topics: San Jose, CA. to Indiana? 6 pages overwritten in part about dropping as members of the Society of Friends.

If it is wrong for one of the disowned to report their side of the case; or if the American Friend, and every other organ of the Society, ought to deny them a hearing, or to be "colorless", and silent from any expression of opinion in the matter, for the sake of the harmony of the body, I am sorry for the body.

But do not fear that I shall give thee up. I love thee too well for that.
