NOTES:

Although study abroad occurred prior to Fall 1995, this semester marks the change in the payment policy that students studying abroad pay regular Swarthmore tuition. At that point information about students studying abroad were consistently recorded in the student information system.

There is overlap in the fall and spring counts, as some students study abroad for an entire academic year.

Those in a short term embedded program are excluded from these counts.

*Off Campus Study ended early in Spring 2020 due to COVID. Off Campus Study participation numbers presented for Spring 2020 are based on activity as of the Spring Census date, which occurred before changes due to COVID.

**Off Campus Study was canceled for 2020-21 due to COVID; two students with unique circumstances were able to participate in Off Campus Study Fall 2020.
