**SAT and ACT Policies**

**C8. Entrance exams**

A. Does your institution make use of SAT I, SAT II, or ACT scores in admission decisions for first-time, first-year, degree-seeking applicants?  Yes  No **NOTE that responses on the table below reflect requirements for applications received in Fall 2004 (for Fall 2005 entry). See comment about new requirements for Fall 2005 (for Fall 2006 entry) immediately following the table.**

If yes, place check marks in the appropriate boxes below to reflect your institution's policies for use in admission.

SAT II	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**NOTE:** Because of the change in the SAT format planned for 2005, applicants sending materials in Fall 2005 (i.e. for Fall 2006 entry) will be required to take either of the following standardized tests: 1) the revised SAT I which will include a mandatory writing component and any two SAT II or 2) the ACT with writing. Although the ACT writing portion will be optional we will require it of those seeking admission to Swarthmore. What is worthy of note since it is a significant departure from previous policy is the fact that the ACT (with writing) will be accepted in lieu of both the SAT I and SAT II. Given the above, we will no longer require the writing SAT II. Prospective engineers regardless of whether they opt for the SAT or ACT will be encouraged to take the Math 2C SATII.

**In addition,** does your institution use applicants' test scores for placement or counseling?

Placement  Yes  No  
Counseling  Yes  No

B: Does your institution use the SAT I or II or the ACT for **placement only**? If so, please mark the appropriate boxes below:

Latest date by which SAT II scores must be received for fall-term admission Jan 1

D. If necessary, use this space to clarify your test policies (e.g., if tests are recommended for some students, or if tests are not required of some students): Applicants are required to take 3 SAT-II: Subject Tests, one of which must be the writing or composition test. Applicants considering a major in Engineering must also take an SAT-II in mathematics

**G1. Undergraduate full-time tuition, required fees, room and board**

List the typical tuition, required fees, and room and board for a full-time undergraduate student for the FULL \*2004-2005 academic year. **I-2. Student to Faculty Ratio**

Report the Fall 2003 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2003 Student to Faculty ratio:   8   to 1. **\*\*\* NOTE: This ratio excludes students and faculty engaged in study abroad.\*\*\***

**Swarthmore College**  
**Common Data Set 2003-2004**

**I-3. Undergraduate Class Size**

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2003 term.

**Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

**Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of *class sections* and *class subsections* offered in Fall 2003. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the “100+” column in the class section column and 40 times under the “20-29” column of the class subsections table.

**Accelerated program:** Completion of a college program of study in fewer than the usual number of years, most often by attending summer sessions and carrying extra courses during the regular academic term.

**Admitted student:** Applicant who is offered admission to a degree-granting program at your institution.
